## Stick to the Old Job, Better Times Ahead.

In every community right now there are dozens of farmers who are either getting ready to quit farming entirely, or are wishing they could. The reason is the extremely low prices of farm products and the high cost of implements, fertilizers, clothing, etc. In every period of distress like this there are always a certain number of "summer soldiers," who give up at the first frost. And it is they who help to improve conditions for the fellow who sticks on the job. There are sure to be hard times in any business, and agriculture is no exception. But it is well to remember that the sincere statesman and far sighted business man realize clearly how disastrous to the welfare of the nation is a beggared farming class. And both are going to take earnest steps to prevent such a calamity. So we may with safety predict that present conditions will not last long. Brighter days are just ahead. The man who stays with the ship now is the man who will cash in when the improvement comes.—Farm Life.

## Recommendation

Indianapolis, Ind.  
June 10, 1921

To whom it may concern:

Recommendation of my dear friend, Mr. Alfred Speigle, of Grundy County, Tenn: who was killed on or about March, 9th, 1921.

This is to state that I have known Mr. Alfred Speigle, for the past seven years, while serving in the U. S. Army, and I must say that Mr. Speigle's character was excellent in all performance, while in my Company, Mr. Speigle rendered very faithful and honest services in the performance of all his duties.

Due to Mr. Speigle. Efficiency and good character of which the writer can positively vouch for in as much as both Mr. Speigle, and myself, have been in daily contact with each other, for about three and a half years out

of seven, and I fully believe that Mr. Speigle, was one of the best men I had in my company.

Mr. Speigle, was transferred from my Company but it was his own request. He was very anxious to go to France, and fight for his country. Mr. Speigle was formerly in "O. M" 10th. U. S. Inf. Which at the time was stationed at Lascascadas Canal Zone, Panama in 1917. The 10th U. S. Inf. was transferred from Panama to H. Benjamin Harrison, Ind., and then split up, forming the 45th and 46th U. S. Inf. Mr. Speigle, and I was transferred to "Co. H" of the 46th Inf. and there we soldiered to gather until he requested to be transferred to the 28th Rep-Bat, and Mr. Speigle, was shortly after sent to France and there he staid until the finish of the war.

Poor boy, after going through with all the hardships over there and to think he came back to his own country, and to be

murdered by a man who called him self American Citizen.

This opportunity is taken to express appreciation for the loyal and faithful services that Mr. Alfred Speigle rendered my Company, during his period of service.

They never made a cigarette like this in my day—

The Camel idea wasn't born then. It was the exclusive expert Camel blend that revolutionized cigarette smoking.

That Camel blend of choice Turkish and Domestic tobaccos hits just the right spot. It gives Camels such mellow mildness and fragrant!

The first time I smoked Camels I knew they were made for me. I knew they were the smoothest, finest cigarette in the world, at any price.

Nobody can tell me anything different.
